

FirstMind Transformation

Turn every role into an AI-leveraged operating system.

AI creates the first useful draft. Humans provide judgment, authority, and approval.
AI is the worker. Humans remain accountable.

The offer

A boardroom-ready program that moves companies from casual AI use to AI-first operating leverage across every function.

Why Sourav

Director IT and systems builder connecting AI, automation, cloud operations, SOPs, and judgment.

1 AI Orientation

Function-by-function exposure across HR, finance, sales, ops, legal, IT, and leadership.

2 Agentic Work

Shift teams from prompts and answers to goals, execution loops, checkpoints, and outputs.

3 Digital Twins

Capture role context, decision logic, tone, rules, examples, and repeatable judgment.

The transformation ladder

Why Sourav is credible

- Operator, not theorist**
Director IT profile with hands-on systems work
